Val & Era Girilovich
8 Years In Love

Hello

Thank you for asking Era and I (Val Girilovich) about finding you a bride that is sensual, loyal and brings you lifetime fulfillment.

Talking To You Man To Man.

Men talk! When I have talked alone with men who have been married first to an Australian wife and then later, a Russian one, the conversation inevitably turns to comparing notes! Many felt originally that going all the way to Russia was a waste of time and money. Others originally felt, that the cultural and language difficulties were not worth it. With almost no exceptions, we all found in the end it was definitely worth it! I even ask guys "Do you want your money back for your wife!" – They always say "no!"

In our conversations, generally speaking, many of us find Russian and Ukrainian women tend to be:

- i) more openly sensuous as there has not been some of the religious taboos we Australians have inherited.
- ii) more grateful because they have come from a less 'lucky country' than Australia, What that means is; because 'the system' has treated people badly in the Communist East, your Russian wife will be more grateful for the improvement, plus (more importantly) she is willing to put up with far more adversity. Therefore there is a greater likelihood of your marriage to a Russian woman being permanent.
- iii) more willing to serve and be committed to duty as they have been brought up with regulations and the attitude to follow 'the system'.
- iv) more family oriented too as they have not had the influence of the Women's Liberations movement and Germaine Greer. Because family is so important to them, they are keen to settle down with one man and stay with him. If a woman has children, she would be keen to bring up the child in a stable environment. This is another plus for you
- v) (maybe I'm biased) but more beautiful too! Their flawless complexions make them just so gorgeous.

Surprisingly, many of the Russian and Ukraine women are very well educated, speak some English and hold responsible full time or part time positions. On the down side, they are not well paid despite their qualifications. Also, alcoholism (particularly amongst men) is rampant in Russia, hence some of Era's friends and her extended network are recovering

from broken marriages due to alcoholism and other problems. We screen your prospective bride very carefully to eliminate those with substance abuse problems.

How It All Started

You may gather by my surname that I am Siberian born. I am an Australian citizen and have been in Australia for 35 years. In 1993, after being in a relationship with an Australian woman for ten years, I went back to Russia both for a business trip and to visit my childhood playgrounds. At the time I was lonely and prayed for a wife. I knew that "God could move mountains", but I also believed that I needed to pick up a shovel and help! During this time, Era and I met. I stopped to ask her about an unusual mountainside monorail. By the way, out of this incident, we have found it is far easier for men and women to get together if men go on a tour of Russia or Ukraine and have prospective brides be their tour guides. It takes away all the awkwardness and gives a better idea of each other! We were married the next year and have been in love ever since.

The agency actually didn't start as a business; it was just Era helping some friends find good husbands in Australia! As Era was senior secretary at the University of Kiev, she was used to organising things, so started organising husbands for her friends!! The word spread and now we are providing the same personalised service as in the beginning. By the way, because we still work from home, we have extremely low overheads, particularly compared to agencies with an up-market city address for the purpose of a "professional image". This means that we can go out of our way to give you very personalised and guaranteed service.

During those 7 years, we have encountered many challenges but because our reputation with our friends were on the line, we worked extra hard to overcome them. By the way, we conduct business from home so do not have high overheads. **What this means to you is that it is now SAFE and EASY for you to come across to Russia and Ukraine with us and find yourself a bride without all the previous hassles and obstacles some of our friend had.**

Tricks And Traps For The Unwary

Craig and the Internet

Craig met a lady via the Internet, fell in love by correspondence. He supported her for six months and then arranged to meet his new love in Turkey. After booking two tickets and two rooms at the hotel, she announced on the second day that he wasn't for her and that she wanted to go and visit her friends in Turkey with out him. Craig was so shocked that words cannot describe the pain he felt. We hear stories similar to this on a weekly basis. **One other trap is that many agencies have a series of "upgrades"**. Era and I refuse this deceptive practice and tell you our charges at the **Risk Free Consultation**.

A Small Sample of Success Stories

Craig and Lena,

On Craig's flight back from Singapore he met a Russian woman who was coming to Australia to be married. That meeting told him that there were genuine, sincere and trustworthy ladies available which restored his faith in human nature. On Craig's return to Australia, his friend brought him over to us (Val & Era). We spent several hours with him.

Craig (Age 40) spotted a photo of a beautiful lady from Minsk. Her name was Lena (32) and she was an economist. Lena was coming to Australia on a business visa. She appealed to him very much. He asked if he could meet her. By the time she had arrived, we had a number of eligible bachelors for her to meet. Craig was second. Lena didn't find the first eligible man to her liking and finished up going steady with Craig. It was very clear from the moment they met that the relationship was genuine and would last. Craig works in the finance industry at the Gold Coast. He traveled for one week from work to Brisbane to just be with Lena and to spend quality time with her. Shortly after, they got married and are now inseparable. Even when Lena had to leave to

pick up her daughter from Minsk, Craig went with her. Lena's degree had recognition in Australia as an accountancy certificate. They are now married and have their own business together.

Don & Olga - *Country Earthmoving Contractor Chosen by English School Teacher.*

Don is a private earth moving contractor and was missing a partner and sole mate. He said to us: "I'm 49 and I'm not getting any younger, so I may as well come to you guys. I understand if no-one finds me attractive, but I'm willing to try." Because of his lack of self-esteem he didn't even pick out any ladies from the catalog and that he preferred that the ladies pick him out. In Kiev, Olga (37), a teacher of English to school children, decided to write to Don after thoroughly checking his application form. He is a lovely guy and before too long they were seriously corresponding. Due to the fact that his photo was in our catalog other ladies wrote to him as well. Don politely let them know that he was seriously corresponding with Olga. When he finally arrived in Kiev his eyes were only for Olga. They felt straight away that their relationship would work. Today they have been together since early 1997 and have a son from Olga's first marriage and now they have their own daughter. Don comes from a large family and he is the only one with a child, therefore the child, a gorgeous little daughter is incredibly spoiled. You can read their comments under D & O -Maleny in the comments section below.

Jeff & Marina - *He's a labourer, she's an engineer and they are both very happy.*

Jeff (49) was a labourer who had never been married from a small country town. After checking our services it took a little time for Jeff to see if he could afford our services. He came to us truly seeking a relationship and a family. He had employment and I said that when the time comes the bank would lend him money for a holiday over there and to bring a lady back. He agreed to start corresponding with Marina, (36) an engineer. He found her very attractive. She responded with a video letter about herself and her son and her environment. We still have the video, and one could see why Jeff fell in love. From that moment nothing could stop Jeff from going over there. Everything went according to plan when he arrived in Kiev. While waiting for a visa into Minsk, we introduced him to other ladies that had wrote to him, and Jeff said he could start a family with anyone of those ladies. But his heart was set on Marina. He could hardly wait to meet her. After spending a week with her in Minsk it was a real pleasure to meet him at the train station. Jeff said: "To my astonishment Marina had cooked for me for three days prior to my arrival!" When I asked Jeff how did the overall meeting go he replied. "I must be the happiest man alive." As soon as we arrived back at the apartment, Marina called to see if Jeff had arrived safely. Jeff had tears running down his face from the concern that she had showed for him. Jeff, Marina and her child from a previous marriage now happily married in that small country town.

John and Svea - *The story of a very Picky and Hard To Please, but now Satisfied Customer*

John and Svea were married on Saturday the 31st of March 2001.

John is 42, a fitter and turner and was a lonely single father who wanted a soul mate and a mother for his child plus a partner for his business. When John came to us and inquired about our services, he initially said he was a very busy man and can't go to the Ukraine as he had a son who he had no one to leave him with. He was an eligible Bachelor and we convinced him to let the girls over there write to him with the condition that they would be in a position that they would be able to travel here. After John had received a couple of letters, common sense told him he had to go over there, after all it was a serious step to be taking. Rather the ladies coming to him one by one and nothing becoming of it, he came to us said: "Let's do this properly!" so decided to go over there and carefully pick out my wife to be.

At our advice he left his son with his relatives and went to the Ukraine. Over there he was extremely careful when meeting the ladies and met many interesting ones in both Kiev and in Minsk. He was considering that he was a single father with a child that lives with him, that he has a business, his background and a preferred life style, when interviewing the ladies. Needless to say that some of the ladies didn't want to become an instant mother. When he met with Svea (25), studying to be a child psychologist, it was obvious to all four of us (John, Svea, Era and myself) that they were both on the same intellectual level. Although Svea didn't speak any English, it was an absolute pleasure to translate questions and answer for them. I recall saying it was the best tennis match that I have had to translate in seven years! Whilst the Immigrations paper work was going through one could only admire the strength of their relationship through correspondence. When Svea arrived here it was a new start for them both. Svea became an instance mother and at the start it wasn't easy. Due to the language barrier and the extra responsibility. They came to us for advise and for help to interpret what they couldn't express to each other. We have met them on occasions and a lot of our consulting was done by phone. In a short space of time Svea's English improved and they were then married.

Comments From Friends We Have Met Through The Business.

Era and I keep on hearing stories of happy couples. Not just couples that have got married, those that are happy. Mind you, we are confident that the big part of the reason for so many success stories is that we provide an ongoing support to help couples develop intimacy in their relationship based on our own knowledge of the cultures, our challenges and successes, particularly in the first year of marriage. We also network you to other couples if you want.

Here are some comments from some friends of ours (by the way, we continually get feedback so as to improve our service to you!) When you come in for your **No Risk Consultation**, you can ask to look at the originals, along with photos of some prospective brides available for you.

"Val and Era have been great assistance to us with their support since we have been together, with their friendship and the support of the other Russian speaking couples they have introduced to us and their assistance with sending support for family members in Kiev has been invaluable for us"

K.& G.B. - Emerald

You have helped us greatly in our initial months together We are pleased with your ongoing interest in our relationship.

L & S.W. - Emerald

We are grateful to the agency for our introduction and assistance in Kiev and Australia. Tina has adapted so well in Australia. She learnt English so quickly it astounded everyone. It has helped her gain an open driving license and to find friends in Mt Isa. Tina's adaptability and quick learning has meant we have had very few problems so therefore we have required very little assistance from you since Tina came to Australia. However prior to this, you were invaluable to both of us, especially in Kiev. Without Val & Era's assistance, it would have been neigh impossible to have met and brought Tina to Australia .

D. & T L - Mackay

We Are Thorough!

This makes a potentially hazardous journey so SAFE and EASY for you. We also know many hazards and things that do NOT work!

Era and I are old hands and know nearly all the tricks and traps for the unwary. We also keep up to date with changes in both the Australian and Russian bureaucracies and work with an immigration agent who really knows his business well. We care about both our clients and reputation so are careful to make sure everything is in order for you and do not take shortcuts. What this means to you is that you can concentrate on finding your bride rather than being distracted by the literally hundreds of little tricks, traps and mishaps for the unwary.

Here's What Good Care We Take of You!

1. Registration

First we help you fill out an application forms and how to choose the best ladies for you from our catalogues. We can also help you with a photograph.

You will only be corresponding with the most compatible ones. It takes two to tango and water finds it's own level! You would be aware that no specialist can guarantee 100% compatibility. Our experience has proven the best method is for you to pick out up to 10 ladies that you like, although our professional opinion will tell us sometimes that this one or that one may not be compatible. Even if we feel that one of the ladies picked out may not be compatible, we still send your photo and application to Russia or Ukraine via e-mail. This way the lady in question makes the decision whether or not she wants to correspond or meet with you.

We send your Application Form and photos with an ice breaking letter to each of your chosen ladies overseas. Remember there may also be ladies over there that choose you!

2. Your Correspondence

You can correspond direct, through us, through fax, through e-mail, or through TNT (Russian Post makes Australia Post look like a model of speed and efficiency!).

The initial correspondence is through us until you and a lady get steady with your correspondence, then we encourage you to correspond directly.

Translation services are considerably cheaper over there (sometimes 1/3 the price!), so we recommend you use our Russian translation services.

We keep you up to date and do what we can so your time, money and emotions are not wasted e.g. (the lady may be already taken) or perhaps one or both of you may need some gentle encouragement!

Your Mind Blowing Guarantee

Over seven years, we have found a 97% success rate of happily married couples. Because of that, Era and I are willing to **GUARANTEE** that if you travel to Russia with us, you will find a bride OR we refund all agency fees. The worst possible thing that can happen is that you go to Russia and become a tourist escorted by a series of attractive, available Russian ladies! (Travel, accommodation, meals and 'hard' expenses such as interpreters, phone, postage etc are your only non-refundable expenses, the same as any tourist.) People pay upward of \$10,000 for this privilege alone! But our fees are much less than that, and we will discuss these at the **Your No Risk Consultation**.
